

Green County Historical Society Museum

MEMORIAL BRICKS

Become part of the Green County Historical Society's Memorial Brick Walk, located in front of the Bethel Schoolhouse on the museum property. Purchasing an engraved brick is an excellent way to honor someone special, remember a loved one, mark an important event, recognize your organization or high school class. Money raised from this project will be used to maintain and improve our displays, buildings and grounds.

Help support the efforts of the Green County Historical Society and become a permanent part of Green County's rich history
